

APPENDIX A: STATEMENT OF CERTIFICATION

C3 Environmental Limited  
Statement of Certification

---

C3 Environmental Limited is a licensed installer of the Waterloo Barrier® System and has performed the required QA/QC inspection on the installation and the sealing of the joints of the Waterloo Barrier® System installed at the Bay Shore OU-1 site, located at Bay Shore, Suffolk County, New York.

We certify that the work was performed in accordance with the procedures and specifications of our License Agreement with Waterloo Barrier Inc. The sealed Waterloo Barrier® sheet pile cut-off wall, based upon conditions at the time of installation, will provide a bulk wall hydraulic conductivity of  $10^{-7}$  cm/s or less for the warranty period of one (1) year from the date of completion, May 9th, 2008. This certification covers the full length of each sheet pile to its full length as installed and the installation of the five (5) benonite-filled drilled shafts. This certification may be voided by factors that are outside of our control, including, but not limited to, acts of nature (i.e., earthquakes), future construction activities, change in groundwater chemistry and/or changes in contaminant concentrations.
