I, Minh Le of the City of Guelph in the Regional Municipality of Waterloo, Province of Ontario.

DO SOLOMNLY DECLARE:

1. I am a Professional Engineer and am Vice President and General Manager of C3 Environmental Limited ("C3).

2. C3 provided a sealable sheet piling system known as the Waterloo Barrier® System (the "Barrier System") in relation to the above-reference Project.

3. The cementicious based grout ("WSB 301 Grout") which is part of the Barrier System, was used to create casts for testing purposes during the course of its installation at the Project site however, the casts made at that time from the samples of WSB 301Grout were inadvertently damaged and cannot be used for testing purposes.

4. In July 2008, C3 made further casts using the same WBS 301 Grout which were submitted for testing purposes to determine the permeability of the WBS 301 Grout as applied during the installation of the Barrier System.

5. I confirm that the mix design and all constituent elements of the WBS 301 Grout (which is proprietary to C3) which was used to complete the Project and which was used to make the initial test casts and the test casts made in July 2008 were the same.

6. I also confirm that C3 used WBS 301 Grout to complete all past Barrier System projects that required a cementicious based grout.

7. I also confirm that the July 2008 test samples were cast using the same techniques, methods and procedures that were used during the course of installation of the Barrier System and to make the initial test casts.

8. I swear this Declaration to confirm the matters set out herein and understand that PS&S, PC and National Grid US are relying upon the information set out herein to satisfy themselves concerning suitability of the testing of the WBS 301 Grout to confirm the permeability of the Barrier System and the WBS 301 Grout.

AND I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath by virtue of the "*Canada Evidence Act*".
